Reported by Misha Trunov
SUT version: 1.2
Date: 21.04.2019

Test purpose:
to determine the response time after improvement

Test setup:
  -   fast run
- **SLOWDOWN_SERVICE_MS_MAX** = 5
- **SLOWDOWN_SERVICE_MS_MIN** = 50

Summary:
We can see all requests are consistently fast:
 - 100% t < 800 ms
For more detailed results please see the report with graphs.
